EXPERIENCE

Web Developer Programmer

Self-employed

📅 2024

PROJECTS

Task Manager Web App

Developed a production-ready Todo List web application using React.js with a clean and responsive UI..

Implemented browser Local storage to persist user tasks, ensuring data retention across sessions.

Built full **CRUD functionality** (Create, Read, Update, Delete) for task management.

Optimized component structure and state management for better performance.

Deployed the application on Vercel, ensuring smooth production release and accessibility

Followed best practices for f**rontend development**, code reusability, and user experience.

Personal Portfolio Website

Designed and developed a **personal portfolio website** using **React.js** to showcase projects, skills, and professional profile.

Built **responsive and mobile-first UI** ensuring cross-browser compatibility and smooth user experience.

Implemented structured sections including **About, Skills, Projects, and Contact** for clear content organization.

Optimized performance and component reusability using modern **React best practices**.

Deployed the portfolio on **Github Pages** with a production-ready build and optimized load time.

Focused on **clean UI design and accessibility**.
